Introduction:		
<p>Seaside School Consortium, Inc. currently operates three (3) independent charter schools in Florida. The Consortium's mission is to provide a joyful, compassionate and creative natural environment for learning, to provide a rigorous curriculum taught through excellent, well-planned teaching that results in deep learning, to nurture students' creative and critical thinking and their artistic expression and to nurture students' environmental stewardship and civic responsibility.</p> <p>The Consortium's vision is to foster each student's intellectual, social, emotional and physical development in a nurturing, arts and science-infused setting that inspires deep learning, a sense of environmental stewardship, and an appreciation for all cultures, the arts, and the ever-changing world.</p>		
Scope of Services:		
<p>Seaside School Consortium, Inc. seeks proposals for Strategic Planning Services. Services should include an in-person analysis and review of current operations including review of Board functions, Operational staff, Administrative staff, Faculty, and other stakeholders. Evaluation should provide guidance on establishing goals and developing action plan for achievement based on department. Analysis should provide guidance on challenges including, but not limited to, programming, curriculum development, governmental relations, growth, management and funding.</p> <p>Consultant should be prepared to provide an oral presentation of findings and plan to the Board of Directors at a public meeting following completion of written summary.</p>
